

Contamination control flooring mats.

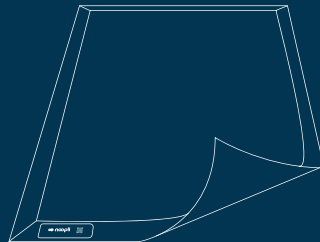

Noopli washable contamination control floor mats are specially designed and manufactured to be placed in any area within critical and sensitive environments. Noopli captures, retains and reduces foot and wheel-borne viable and non-viable particulates, enabling effective microbiological and physical contamination protection.

4 simple products for all scenarios:

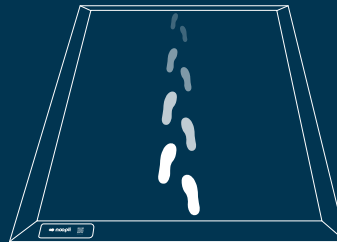

noopli
LOOSE
LAID

Noopli Loose Laid is delivered to you as a rolled up finished mat. Simply unpack, unroll and place into the desired area. Simple and no fuss.

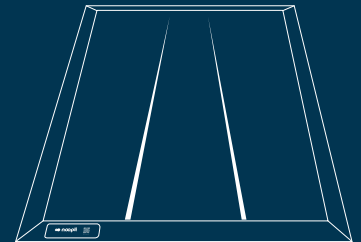

noopli
SELF-
