**Betreft :** **Warranty**

With this letter we confirm that below mentioned Jislon Stainless Steel Mirrors have a warranty for 5 (five) years on complete mirror, bracket and backpart of the mirror;

- \* 344-560 Verkehrsspiegel Edelstahl 45x60 cm mit Halterung 76 mm
- \* 346-080 Verkehrsspiegel Edelstahl 60x80 cm mit Halterung 76 mm

Jislon warrants that its Products are free from fractures and faults (hereafter: "Defects") at the moment of delivery.

In case the original Products, notwithstanding this warranty, show Defects, then Jislon is entitled to decide either (i) to take back the Products and deliver new Products to the Counterparty, in which case after redelivery Jislon shall be regarded to have fulfilled its obligations towards the Counterparty, or (ii) to compensate the Counterparty. Jislon does not provide any further warranty regarding the conformity of the Products, especially given the nature of the regular use of Products (which includes, but is not limited to, repeated heavy and high impact on Products, severe weather conditions and vandalism) and the wear and tear caused by such use.

Furthermore, the warranty provided by Jislon does not cover Products which have been altered, treated or amended in any way. Jislon does not warrant that the Products adhere to local laws and regulations, nor that their use is permitted under such laws and regulations.

The Counterparty is obliged to inform Jislon in writing of any Defects and complaints in relation to the Products within thirty (30) days after receipt of the Products, or, where this is not possible, no later than eight (8) days following the discovery of Defects, after which all rights of the Counterparty to claim on the basis of the warranty lapse. In case of a complaint, the Counterparty shall store the Products in question in a safe condition, to preserve the state in which they were received and shall as soon as possible send Jislon evidence of the Defects.

With best regards
